Email: shekhwatvijay384@gmail.com
Mobile: +919784561778

SKILLS

Programming Languages: C++, Java, SQL, Typescript
Frontend Technologies: React.js, HTML, CSS, JavaScript
Backend Technologies: Node.js, Express.js, REST APIs, API Integration, JWT Authentication
Databases & ORMs: MongoDB, PostgreSQL, Firebase, Mongoose, Prisma ORM,
DevOps & Developer Tools: Git, GitHub, GitHub Actions, Docker, VS Code
Concepts & Practices: Object-Oriented Programming (OOP), Data Structures and Algorithms, MVC Architecture, Authentication
Soft Skills: Adaptability, Organized, Time Management

PROJECTS

Unclean | GitHub | Link Jun'2025 – Present

- **Develop** a user-friendly laundry service website that allows customers to schedule pickups, track orders, view pricing, and access services online, making the laundry process faster and more convenient.
- **Eliminate** long waiting times and manual service requests by offering an online booking system that allow users to place laundry orders anytime.
- **Enable** easy access to laundry services with just a few clicks, improving convenience and overall user experience.

ChatApp | ***GitHub | Link*** Aug'2024 – Sept'2024

- Create a real-time chat web application that allows users to communicate instantly through a simple and secure interface.
- Built for real-time communication, ease of use, and reliable interface for users.
- Implemented user authentication, databases syncing, and responsive UI.

Apni Dukan | Github | link Oct' 2025 – Nov' 2025

- **Built** a web platform enabling local shopkeepers to create digital storefronts, list products, manage inventory, and receive customer orders efficiently.
- **Designed** a clean, responsive frontend using React, Tailwind CSS, and Framer Motion, prioritizing simple navigation for non-technical shop owners.
- Developed shop-owner modules for product uploads, pricing, stock updates and order tracking, ensuring that each shop gets a personalized and easy-to-manage dashboard.
- Implemented customer-facing pages with product listings, search and smooth browsing flow, helping users explore local shops online and place quick orders.

TRAINING

Data Structures & Algorithms using C++ | **Lovely Professional University** | Certificate Jul' 2025

- Completed hands-on training in core Data Structures and Algorithms, focusing on arrays, linked lists, stacks, queues, trees, Graphs, sorting and searching techniques.
- Built mini-projects like path-finding, scheduling and basic compilers using DSA concepts.
- Learned how to optimize code for performance using recursion, memorization and greedy approaches.

CERTIFICATES

- Problem Solving Basic– | HackerRank Sept'2025
- Data Structures & Algorithms using C++ | Certificate Jul' 2025
- SQL Basic | HackerRank Nov' 2025

EDUCATION

Lovely Professional University Punjab, India
Bachelor of Technology in Computer Science *Since Aug' 2023 - Present*

DAV Centenary Public School Jaipur, India
Senior Secondary School Aug' 2021 – May 2022

DAV Centenary Public School Jaipur, India
Secondary School Aug' 2019 – May 2020
